- Our fearless CEO is a Akita named Antu. Antu can often be found adorned in a stylish helmet stoically into the distance or, at times, yawning. According to his *PetMatchMaking* bio, Antu is a “lover of the finer things in life.” Peculiar in looks and personality. Extremely loving but with a healthy understanding of his human’s shortcomings. Antu never fails to forget just how incredibly handsome or iconic he is. Antu has been deemed the “Big-Little CEO in the WORLD” by many incredibly notable sources.

What are we doing?

- We are a young and motivated team providing
- online services to our users.
